PROFESSIONAL SUMMARY

Third-year B.Tech Computer Science student at Karunya University, Coimbatore, with focused interests in Artificial Intelligence, Machine Learning, Web Development, and Quantum Computing. Building strong expertise in Python, full-stack technologies, data structures, and algorithmic thinking. Passionate about leveraging emerging technologies to solve real-world problems and contribute to innovative, impact-driven projects.

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, C, C++
- **Web Development:** HTML, CSS, JavaScript, React, Node.js
- **Database & Tools:** SQL, MySQL, Power BI, GitHub
- **AI / Machine Learning:** Machine Learning, Deep Learning, Computer Vision, Generative AI
- **Embedded Systems:** Arduino, ESP32, Raspberry Pi, Jetson Nano

EDUCATION

B.Tech in Computer Science and Engineering (Artificial Intelligence & Machine Learning)

Karunya Institute of Technology and Sciences, Coimbatore | Aug 2023 – Present

CGPA: 8.27 (till Semester 6)

Amrita Vidyalayam – HSC (Class XII, PCMC)

Coimbatore, Tamil Nadu | 2023

Percentage: 77.4%

Amrita Vidyalayam – SSLC (Class X)

Coimbatore, Tamil Nadu | 2021

Percentage: 75.4%

RELEVANT COURSEWORK

- Artificial Intelligence & Machine Learning Fundamentals
- Cybersecurity
- Operating Systems
- Object-Oriented Programming
- Database Systems

CERTIFICATIONS

Google AI Essentials | 2024

Google Cybersecurity | 2024

Snowflake SnowPro Associate – Platform | 2025

EXPERIENCE

Python Developer Intern | Next24Tech | 2023

- Developed a Tkinter-based registration form and chatbot. Built a
- GUI lyrics extractor using API integration and web scraping.

Web Developer Intern | Mandy Technologies | 2025

- Developed responsive web templates using HTML, CSS, and JavaScript for digital marketing platforms. Focused on creating adaptive layouts with cross-browser and cross-device compatibility. Worked under professional mentorship in a real-time front-end development environment.

President – KITS ACM Student Chapter | 2025 – Present

Leading technical and outreach initiatives, organizing Hackathons and coding competitions, tech talks, and fostering collaborative learning among students.

Member – Rotaract Club | 2024 – Present

Engaged in leadership-building programs and community service initiatives.

Cybersecurity Learner – GDSC Google | 2023 – Present

Participated in workshops on ethical hacking, network security, and threat analysis.

FREELANCE PROJECTS

MEMORY TELLER – AI for Amnesia Patients | 2024

- Implemented facial recognition and speech synthesis for real-time interaction and memory assistance.
- Aimed at enhancing the daily life of patients with memory impairments.

BUS TRANSIT AI – Route Optimization System | 2024

- Engineered an AI transit system using ensemble ML and graph algorithms for optimal route prediction.
- Deployed a scalable Flask web app to process transit datasets and deliver live ETAs.

CAMPUSIQ AI – Predictive Behavior & Recommendation Engine | 2025

- Developed an AI system analyzing user behavior for personalized course and career recommendations.
- Implemented predictive ML models to transform raw data into actionable institutional insights.

NEURAL-AI – Intelligent Website Builder & Code Generator | 2025

- Built an AI-powered web platform with a real-time drag-and-drop UI.
- Integrated intelligent pipelines to dynamically generate production-ready code from visual layouts.

ACHIEVEMENTS

Gen-AI Hackathon – Intel @ KPR | 2024

- Participated and contributed innovative AI-based solutions in a team-based hackathon.

BugBash Python Coding – Mindkraft, Karunya | 2024

- Secured 2nd place in a competitive Python coding challenge focused on debugging and problem-solving.

National Finalist, Robofest 5.0 - GUJCOST | IIT Gandhinagar | 2025

- Proudly represented Tamil Nadu in the national finals, navigating rigorous technical evaluations to emerge as one of only 15 teams in our category, out of an initial pool of over 2,096 teams and 10,480 students nationwide.
- Awarded a total prize of ₹2,50,000 (Level 1 & Level 2) for excellence in robotics, system design, and competitive problem-solving.
- Independently engineered the complete software architecture for the Autonomous Intelligent Ground Vehicle (AIGV), implementing A* search algorithms for dynamic path planning, LiDAR sensor fusion for SLAM (Simultaneous Localization and Mapping), and advanced computer vision pipelines for real-time lane tracking and dynamic obstacle avoidance.

LANGUAGES

- **Tamil** – *Native Proficiency*
- **English** – *Professional Working Proficiency*
- **Hindi** – *Basic*
